

DASH

SYSTEL'S RESPONSE TRACKER

System and the Launch of DASH

System is thrilled about our latest security development feature, DASH. It is sure to reinvent the customer experience through advanced communication and convenience. This is just one of System's tools and investments in our customers' security as we strive to keep up with today's on-demand culture and growing customer expectations. **Visit systemloa.com/dash for more information about DASH!**

How Does DASH Work?

How much does it cost?

The DASH feature is available to all customers at no cost.

Is DASH available at every System branch?

Yes. The DASH interface is available to customers at all branches.

How do I receive DASH updates? Do I have to sign up?

If we have an updated email address on file you will automatically receive an email with a link to real-time GPS tracking updates as soon as you have placed a service call.

How can I place a service call online?

Register for e-info access at systemloa.com/e-info and submit service calls or orders through the e-info portal.

About DASH

System's Secure Response Solution

Safety is our Top Priority! We recognize that any time a service call is placed, our customers are putting their trust in System - to not only provide excellent customer service, but to also provide certainty about who is entering their workplace. This trust has driven us to raise the bar on safety by developing comprehensive security features, like DASH, short for Dispatch and Security Help Desk, to give our customers peace of mind when placing a service call. DASH utilizes a GPS tracking feature that enables customers to receive real-time location and status updates, as well as the estimated arrival time, name, number, and photo ID of the responding service technician. The technician's progress can be monitored until the reason for the call has been resolved.

"Security is not expensive, it is priceless."

About System

System Business Equipment Co., Inc was founded in 1981 by current President and CEO Keith Allison. The company has grown exponentially in the 40+ years and is proudly serving all 100 counties of North Carolina as well as parts of South Carolina, Georgia, Tennessee and Virginia. We provide office equipment and services to more than 10,000 businesses and organizations, the majority of them being large corporate, government, and military clients. With clients like ours, we understand the need for top-notch security, and we are proud of the efforts we have made to ensure that customer safety remains our top priority.
